

PRESS RELEASE

# CM.com founders intend to reduce stake over time to improve liquidity in shares

BREDA, 15 MARCH 2024

CM.com announces that its founders, Jeroen van Glabbeek (acting as CEO of CM.com) and Gilbert Gooijers (acting as COO of CM.com) intend to reduce their stake in CM.com from 25.4% each to approx. 20% each over a period of 7 years until 2030.

The reason for this is the wish of the founders to increase the free float in the shares of CM.com and thereby improve liquidity in the shares. The intended program will bring the combined shareholding of the Founders below 50%. Part of the proceeds will be used to invest in improvements to CM Campus.

The Founders intend to sell together approximately 100.000 shares per quarter at the then-current market price. The intended sale will be subject to closed periods and appropriate notifications shall be made via the AFM register.
