

RCS Black Friday Offer

Get ready for Black Friday with RCS. CM.com provides a rich, branded RCS messaging channel designed to help you get more attention from customers during the Black Friday period.

Sign the RCS Order Form and receive RCS onboarding free of charge, with no RCS subscription fees until January 1.

The RCS subscription has an initial term of twelve (12) months and is subject to the standard CM.com Terms and Conditions and applicable Service-Specific Terms. The free period forms part of this twelve-month Initial Term. From January 1, the subscription fees stated in the Order Form will apply.

The offer applies only to the RCS onboarding fee and the monthly RCS subscription fee. Messaging and other usage-based charges, overage charges and any applicable third-party fees will be charged in accordance with the Order Form and the Agreement.

CM.com does not guarantee that RCS will go live before 27 November 2026. The implementation and go-live date depend on factors including the Client's technical environment, integrations, timely provision of information and access, testing, decision-making and cooperation. A later go-live date does not affect the free onboarding or free subscription period and does not entitle the Client to an additional discount, extension or compensation.
